

SHAHAB DAD KHAN

SOFTWARE DEVELOPER

PROFILE

Specialized in crafting dynamic and responsive web applications. Approach every task with honesty and passion, contributing to a proven track record in delivering impactful solutions.

EXPERIENCE

GREENHONCHOS SOLUTIONS PVT LTD

2021 - Present

JIOMART ASP

- Led the conception and implementation of critical functionalities, such as optimizing the checkout journey, enhancing order tracking, introducing pre-order features, and more, within the Jiomart Assisted Sales Platform, resulting in improved user experience and platform efficiency.

MANISH MALHOTRA

- Innovated and implemented an automated size selection feature on the Product Display Page (PDP), leveraging user data from past interactions to elevate personalized experiences and streamline the customer journey.
- Engineered a user-friendly zoom functionality for product images on the Product Display Page (PDP), promoting improved product visualization and heightened user engagement. Achieved multiple enhancements and updates to align with project requirements and ensure optimal platform performance.

OTHERS

- Successfully integrated innovative features, resolved bugs, and effectively managed overall development for high-profile projects, including Ritu Kumar, BPL, Hamleys, and others, contributing to the successful delivery and client satisfaction.

PERSONAL INTEREST

Find joy in playing football, engaging in adventure travel, and spending time watching podcasts.
